FITTING PROCEDURE

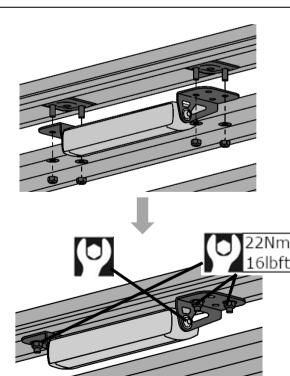

It is recommended to fit the lightbar before placing the rack on the vehicle roof

1. Fit one bracket to each end of the light bar as shown (hardware to light not supplied)

- 2. Insert 2 x M8 COHD bolts in each stud plate
- 3. Insert the plate assembly into the BASE Rack Channel and rotate 90°

- 4. Assemble the light bar and brackets to the stud plates with M8 Nyloc Nuts and Washers
- 5. Tighten the light bar bolts to manufactures recommendation
- 6. Tighten the M8 fasteners to specified torque
